

FULL-STACK DEVELOPER

SUMMARY

Resourceful and detail-oriented Full Stack Developer with hands-on experience building web applications using the MERN stack . 3 internships plus customer service experience, I developed strong problem-solving abilities, cross-team communication skills, and a user-first mindset while delivering projects from concept to deployment. Proven ability to manage client relationships, handle customer inquiries with professionalism, and work effectively in fast-paced, multicultural environments. My background in Economics & Management brings a unique perspective on business logic and user needs. Trilingual and comfortable in diverse work settings. Actively seeking a role where I can grow, contribute, and make an impact.
